

**Even more ways  
we help you save.**

Cost is more than just a rate — do you know your real spend? Lack of visibility and fragmented, broken processes can result in leaks throughout the process, and they can be difficult to identify and solve. The first step is understanding what cost really is. We can help.

While some companies will come to you with new rates — rates they **think** they can fill your jobs at, what we offer is an end-to-end solution to cost containment that encompasses not only rates, but soft savings and the ability to fill more successfully and faster than anyone else.

#### CONSULTING AND LEAN EVENTS

As CHG strategic partners, clients get access to our Lean team — a group of expert industry consultants — and a two-day event. The financial benefit of these consulting events can be millions of dollars.

#### DELEGATED CREDENTIALING

Allowing us to handle your physician credentialing yields many benefits — chief among them is reducing your time to fill and increasing the return on your locums investment.
